Combat Medical Care Conference June 4th to 5th 2014 in Ulm, Germany

Ladies and Gentlemen,

after the great success and positive response we received for the past eight TCCC symposiums held in Pfullendorf, the Armed Forces Hospital Ulm – Department of Anaesthesiology and Intensive Care Medicine – would like to cordially invite you to have your business enterprise represented at Combat Medical Care (CMC) Conference (TCCC Symposium), which will be held jointly with the Special Operations Training Center.

The goals of this CMC Conference are to cater to the great interest in the important field of tactical casualty care and the treatment of combat related injuries from the battlefield to a definitive treatment facility in the home country, and to create an established "point of excellence" for combat medical care on an international level.

Main themes of the conference:

The aim of CMC conference is to discuss the interaction of non-medical personnel (combat lifesavers and combat first responders trained to provide preclinical casualty care) and qualified medical staff in mission, as well as options for future training.

Further topics will be role 2 interdisciplinary care for combat casualties and AirMedEvac.

The motto of CMC conference "Train as You Fight" places major emphasis on training, "lessons learned" and further development of skills and equipment.

You are hereby cordially invited to give our high-ranking national and international guests from the military medical field and our military leaders and planners an impression of your range of products so as to pave the way for fielding such products in the German Bundeswehr. The combined forum of combat first responders (CFR), military medical personnel and military leaders is going to provide for fruitful discussions, as we expect up to 800 attendees – both military and civilian – from international sphere of tactical medicine.

You will find further general informations and an overview of possibilities to support our conference or special workshops attached.

If you decide to accept our offer, a supporting agreement may be concluded between you and the host of the event, the *Deutsche Gesellschaft für Wehrmedizin und Wehrpharmazie (DGWMP)*.

**For sponsoring-related information, your designated point of contact is Mrs. Heike Kempen,
(Phone 0049 228 / 30 899 534, E-Mail: kempen.heike@dgwmp.de DGWMP Federal Manager Assistance.**
